Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

I am very pleased that you have become our new governor of California. I am hoping that the values that have been tossed aside such as the environment, child safety, health issues, contamination of our water and air and many social issues will be handled in a smarter way. Looking at the long term effects of these issues, I am interested in the new CalFed Program for long term planning for our bays, rivers and drinking water. I have lived in California almost all my life and I have seen terrible use of our water, short term thinking and larger interests polluting our environment without any ramifications.

I hope that you will listen to the people such as myself who wish to remain residents of California and raise our families here for generations. Please give your attention to the "CALFED Bay/Delta" program and support intelligent use of our water resources for the years to come.

CLEAN WATER IS ESSENTIAL FOR OUR SURVIVAL!

Sincerely,

Bonnie Gray
